Personal Statement

I am an enthusiastic and adaptable individual, drawn to challenging situations that allow me to unleash my full potential. I possess a keen eagerness to learn and pursue opportunities that align with my inner drive for personal growth. Committed to excellence, I approach every task with diligence and dedication. Upholding my principles steadfastly, I remain unwavering in the face of adversity while remaining open to adapting my strategies as needed to meet evolving demands.

EDUCATION

- August 2017 - May 2020

Bachelor of Technology - BTech, Computer Science
DIT UNIVERSITY
- August 2014 - May 2017

Diploma, Computer Science Engineering
Seth Jai Parkash Polytechnic, Damla

EXPERIENCE

January 2024 - Present

Location: Bengaluru,
Karnataka, India

Software Engineer

Zeitgeist Retial Private Limited

Project: Backend Services Integration for Zrpl's B2B Products

- Spearheaded integration efforts for Zrpl's flagship products, catering to both B2B and B2C markets.
- Collaborated closely with internal teams to implement new features tailored to client requirements.
- Implemented and maintained RESTful API integrations using Node.js, ensuring seamless communication between systems.
- developed, and maintained RESTful APIs using Node.js, facilitating seamless communication between systems.

Technology Stack:

Node.js, JavaScript (JS), Node-RED, SQL, Git, JWT Authentication, MongoDB, AWS

October 2020 - May

2022

Location: Pune,
Maharashtra, India

Junior Software Engineer

Cognizant Technology Solutions India Private Limited

II began my journey as a software engineer at this esteemed company, dedicating 1.5 years to honing my craft. As a versatile back-end developer, I contributed my expertise to diverse projects, navigating the intricacies of back-end development

Project: Overseeing Backend Services for The Traveler Companies

- Implementing new features as per client specifications
- Enhancing robustness through meticulous test case integration

Technology Stack:

Node.js, JavaScript (JS), SQL, Git

Personal Projects

Project Title: Tourist Package API Service

Description: Developed a Node.js project serving as a robust API service for tourist packages. Implemented CRUD operations and advanced API filtering functionalities to facilitate seamless package management. Leveraged Swagger for comprehensive API documentation, ensuring clarity and ease of use for fellow developers and stakeholders.

Technology Stack:

- **Node.js:** Used for server-side development, powering the backend logic and API functionality.
- **PostgreSQL:** Employed as the primary relational database management system for data storage and management.

TECHNICAL SKILLS

Node.js
Javascript
Object-Oriented Programming System(OOPS)
Structured Query Language(SQL)
Data Structure And Algorithm
MongoDb
Node-Red
Docker Containerization
Git
JWT Authentication
OAuth
ORM (Object-Relational Mapping)
AWS
